Julie

The building could increase traffic from that site. The area already has a high traffic flow at time due to the schools in the area. The church has hours that may not effect the other activities in the area.

Ryan Shea,

We support any improvements to their property. There could be issues with the location of power lines, transformers, metering equipment, gas lines and gas meters. If required to relocate Avista's facilities it will be at the expense of the church.

Hi Ryan,

Thanks for the info. However, This project is in the Avista service territory and has no impact to Northern Lights, Inc.

Thanks,

Mark Contor
